

Hussam Azhar

Software Engineer

Software Engineer with 5+ years of experience developing high-performing and scalable Web and hybrid desktop applications, RESTful APIs, enhancing the core functionality and the productivity collaboratively and independently. Possesses an expertise in React.js, Node.js, TypeScript, PHP, C# and SQL, MySQL and SQLite databases. Skilled in delivering high-quality solutions, leading teams, and optimizing performance. Passionate about learning modern back-end technologies, writing clean code, and solving complex problems.

PROFESSIONAL PROFILE

Software Engineer

IMSI Technologies (Pvt.) Ltd. – Lahore, Pakistan

November 2021 – Present

- Developed and maintaining of company's three main CAD products (hybrid desktop applications for Win, Mac, Linux and Chromebook OS developed in Electron.js, React.js, Redux, Typescript, Material UI and Node.js).
- Handling company's Digital Rights Management and Product licensing portal and enhancing its functionality with new features (Php, MySQL, JWT)
- Created scripts for the email drips for notifying customers about their licensing status using php, php-Mailer and cron jobs
- Created and maintaining Windows and Web services for serving orders placed on online stores to customers with license key generated from DRM Portal (c#, .Net, Entity framework, SQL)
- Database management and Deployment of windows and web services on company's servers
- Created CRM Portal for the company for order, license key and customer data lookup (Php, MySQL, JWT)
- Integrated Braintree Payment Gateway to WooCommerce stores and created bridge between stores and company's DRM portal for the renewal of subscription licenses of the products
- Implemented In-App subscription renewal module using Paypal in company's core product TurboCAD.
- Mac apps submission to Mac App Store
- Research and development related to the new feature set of the product in order to extend its functionalities
- Provide the best possible solution to the functional anomalies identified by QA team
- Weekly task reporting and presentation to CEO and all stakeholders about progress of all on-going projects

Associate - Digital & App Innovation - Engineering

Prismware Technologies – Lahore, Pakistan

February 2023 – December 2023

- Worked on Google Cloud and BigQuery for fetching data from 3rd party API and save it into BigQuery through cloud functions to perform fast, interactive analysis of stored datasets (Node.js)
- Developed and deployed serverless applications using Google Cloud Functions to handle real-time events and backend processes without managing servers.
- Designed event-driven workflows by integrating Cloud Functions with Pub/Sub, Cloud Storage, and Firestore to automate data pipelines.

- Scheduled recurring tasks with Cloud Scheduler (cron jobs) to trigger Cloud Functions for automated backups, reporting, and system maintenance
- Implemented secure APIs with Cloud Functions to connect React/Node.js applications to backend services
- Worked on Postman for API testing
- Converted Figma designs to React Components for front-end development of web apps (React, Hooks, Redux)
- Contributed with new feature set to the updates to already developed products
- Helped the team with identifying the problems in a web project and giving the best possible solution

Associate Software Engineer

IT-Falcons (Pvt) Ltd. – Lahore, Pakistan

September 2018 – June 2021

- Bug fixing of desktop applications developed in WPF C#.
- Bug fixing of web applications developed in MVC C#.
- Bug fixing of WordPress theme templates for company's online stores (php)
- Worked on JIRA for bug management and reporting
- Integrated SOG-eCommerce payment gateway to a web project (Laravel MVC, php)
- Completed development tasks assigned by Project Manager on daily bases
- Communicating with clients and gathering requirements for the project.
- Performing necessary requirement analysis and providing best solution for development
- Assisting senior team members in database and back-end development
- Developed three web-based projects from scratch till the deployment using MVC architecture (.Net MVC)

EDUCATION

Government College University – Lahore

BS (Hons.) Computer Science | Major: Web Engineering, Databases

2013 - 2017

Punjab College of Science – Lahore

Fsc. Pre-Engineering

2011 - 2013

Qurban and Surraiya Educational Institute – Lahore

Matriculation in Science

2009 - 2011

RELEVANT SKILLS

• JavaScript ES6 + jQuery		90%
• Node.JS		90%
• Typescript		60%
• React.JS		90%
• React Hooks		90%
• Redux		70%
• ASP.NET (MVC, Core)		90%
• Database (SQL, MySQL, SQLite)		90%
• Entity Framework		80%
• PHP		65%

• LARAVEL MVC		70%
• Material UI		60%
• HTML + CSS + Bootstrap		80%
• Google Cloud Services		70%

TOOLS & TECHNOLOGIES

Visual Studio | Visual Studio Code | Visual Studio TFS | Electron (API+CLI) | Sublime | MS Azure | Git
 SmartGit | MS SQL Server | Google Cloud | WinSCP | Xampp | Mac App Store | XCode | JIRA | Postman |
 MS Office | Figma | Fiddler

PROJECTS

The Print Shop for Mac

IMSI Technologies (Pvt.) Ltd

Desktop application which helps users to design stunning print projects, to create projects with over 10,000 royalty-free professional backgrounds and images and 400+ unique templates, to easily import personal photos, color them correct, crop, and alter them in any way a user sees fit to elevate the designs with its photo editing tools.

Link -> <https://www.encore.com/the-print-shop-for-macintosh>

Areas of Development:

- Front-End (React JSX, function Components, Hooks, Context, Forms, Routers, Redux, Typescript, JavaScript ES6, Material-UI, HTML5, SASS)
- Database (ERD, SQLite Schema and Queries)
- Back-end (Node.JS)
- Web Views with Electron Frames (Electron Model (Main + Renderer process))
- Fetching data from API endpoints using axios
- Mac App Store Submission

PrintMaster v9 Win and Mac

IMSI Technologies (Pvt.) Ltd

Desktop application which helps users to create projects free of license limitations with over 10,000 royalty-free professional backgrounds and images, and thousands of unique royalty-free templates. Customers can put together picture-perfect designs for everything from greeting cards, to invitations and Postcards, calendars, business brochures, cards and so much more.

Link -> <https://www.encore.com/printmaster-v9>

Areas of Development:

- Front-End (React, function Components, Hooks, Context API, Forms, Routers, Redux, Typescript, JavaScript ES6, Material-UI, HTML5)
- Database (ERD, SQLite Schema and Queries)
- Back-end (.Net core 2.2, ElectronNET.API. Node.JS)
- Web Views with Electron Frames (MVC model + Electron Model (Main + Renderer process))
- Printing Application Module (Swift)
- Mac Apple Store Submission

iDRM Portal

IMSI Technologies (Pvt.) Ltd

Digital Rights Management Portal of US based company IMSI Design which helps the company to manage licensing of all its products, generates product keys, keeps track of company's active customers and displays stats about sold products and refunds.

Areas of Development:

- Front-End (HTML5, CSS3, Bootstrap, JavaScript, jQuery)
- Database (ERD, MySQL Schema and Queries)
- Back-end (Php 8.0)
- REST APIs and webhooks (JWT/Auth)
- Email based intimation (PHP Mailer)
- Stats of customers, keys and products data

TurboCAD Win

IMSI Technologies (Pvt.) Ltd

TurboCAD Professional is for experienced 2D/3D CAD users. It provides hundreds of drawing tools, an optional AutoCAD®-like 2D drafting interface with command line and dynamic input cursor, 3D modeling tools, photorealistic rendering and extensive file support.

Link -> <https://www.imsidesign.com/products/turbocad/turbocad-windows>

Areas of Development:

- DRM Client sdk development (C++)
- Payment Gateway Integration (Braintree, Paypal) for in-app subscription renewal
- Floating license workflow implementation

BAZ Consulting

IT-Falcons (Pvt) Ltd

Baz Consultancy, as an advisory firm, endeavours to bring together right-minded entrepreneurs, corporate organizations as well as NGOs to challenge established thinking as well as capably accelerate the implementation of given solutions to achieve sustainable results.

Link -> <https://bazconsulting.com/>

Areas of Development:

- Front-End (HTML5, CSS3, Bootstrap, JavaScript, jQuery)

Star Marketing

IT-Falcons (Pvt) Ltd

Website and Property Sale-Purchase Panel of Pakistan's number one Real Estate Marketing company, where customers can easily find cost-effective residential and commercial properties of their desire in Karachi, Lahore, Islamabad, Peshawar and other cities of Pakistan. They can also sell their properties by posting ads on the website and managing them from their own dashboard.

Link -> <https://www.starmarketingonline.com/>

Areas of Development:

- Front-End (HTML5, CSS3, Bootstrap, JavaScript, Vue.js, jQuery)
- Database (ERD, MySQL Schema and Queries)
- Back-end (Php MVC Laravel 5.5)
- Live chat (Pusher Service)
- Admin Panel, Customer Dashboard and Property Sale/Purchase Portal

CERTIFICATIONS

.NET Specialist

EVenture Solutions (EVS) Training Institute

Reg No: L0116060052

Microsoft Azure

MicrotechX-IT Training Institute

Reg No: 16-04-GCUL-409

ADDITIONAL SKILLS

- Dedicated and committed to work
- Disciplined and Punctual in meeting deadlines
- Hard worker possesses Can-do attitude
- Ability to manage project independently or collaboratively with a team
- Good interpersonal, communication and problem-solving skills
- Quick learner and adaptive to new technologies
- Frequent in English, Urdu and Punjabi
- Great communication skills with clients
